PRB LINE

Cross Guide

A comprehensive cross reference manual
for looking up belts & replacement parts.

3000 Lawson Blvd.
Oceanside, New York 11572

SMD Rework: Easy As 1-2-3

Zephyrtropici'm

1. Always Preheat. The award-winning, low temperature AirBath gently preheats PCB assemblies to a maximum of 150°C/300°F, permitting substantially lower applied temperatures for the reflow process (just like production profiles).

- Fully portable - no air hookups necessary
- Quick cool down cycle results in stronger solder joints
- ESD wrist strap receptacle
- Board cradle holds tiny boards up through the largest military/satellite PCBAs.

ZT-1 & ABC-1

AirBath (PN: ZT-1)

Board Cradle (PN: ABC-1)

CHIPQUIK®

2. Remove. Use the patented Chip Quik® to safely remove the component from the preheated board. The revolutionary low temperature SMD Bench Rework System includes products for removal and replacement of PLCCs, SOICs, & QFPs.

CQ-1000

- Chip QuiV reflows component leads at 300°F
- Removes any size/any shape SMD
- Products need no refrigeration
- No Nozzles needed!

ZT-2

Zephyrtropici'

3. Replace. The AirPencil is designed to work with the AirBath to facilitate SMD replacement. Just a whisper of the AirPencil over the pre-warmed leads and the solder reflows. The 24-volt handpiece is thin and easy to direct along the leads for right- or left-handed users. There is no contact between the AirPencil and the leads.

- Minimal air stream prevents scattered solder balls
- Every joint visible as you reflow it
- No nozzles to obstruct your vision

The Complete SMD Removal & Replacement System

HOW TO USE THE PRB LINE CROSS REFERENCE GUIDE...

For Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11:

- A. Manufacturers are listed alphabetically.
- B. Next find the Model Number of machine which is listed in **Alpha-Numeric** ascending order.
- C. Locate the description of item being replaced.
- D. Order the PRB Replacement to the right of the description.

For Section 12

- A. Manufacturers are listed alphabetically.
- B. Next find the Manufacturer's Part Number which is sorted by **Computer Logic**.
- C. Order the PRB Replacement to the right of the Manufacturer's Part Number.

For Section 13 (Specifications):

If you do not have a Model or a Manufacturer Part Number, use Section 13 to cross the original measurements with the listed PRB part specifications. Order the PRB Replacement Part that is closest to the overall dimensions.

BELTS

FLAT RUBBER BELTS (FR)

USE **PRB** SYSTEM

The "FR" (Flat Rubber) belts have been grouped by inside circumference to make it easier for you to choose the best replacement belt.

1. First determine your needed IC (Inside Circumference).
2. Locate the group your IC fits into.
3. Choose the belt that is closest to the needed C/S (Cross Section) and Wall.

End "Wow & Flutter" in sensitive audio equipment!

PRB has incorporated Precision Molded Belts into their Flat Rubber belt line.

Now, all flat belts with a wall of less than .030 are precision molded.

SQUARE CUT RUBBER BELTS (SC)

USE PRB SYSTEM

As shown, the PRB number shows the type of belt (SC = Square Cut), cross section and inside circumference as measured by the MEASUR-A-BELT II.

Example: SCY4.0 = .039 or less x 4.0" IC
 SCX4.0 = .040 - .049 x 4.0" IC
 SCQ4.0 = .050 - .064 x 4.0" IC

SCA4.0 = .065 - .079 x 4.0" IC
 *SCB4.0 = .080 - .094 x 4.0" IC
 *SCC4.0 = .095 & up x 4.0" IC

*This P/N does not exist.

WIRE BEETS & I(1TS (WP/WB)

How To Use Wire Belt Charts: Chart #2 includes the length of your belt and the WB conversion. Refer to Chart #1 to determine the gauge of the wire and the overall outside diameter. Then cut the WB Belting to the length of WP Belt you need and connect the ends by using the inserts included with your WB Kit*.

Interlocking Rib
Connectors

- Supplied with insert connectors
- No hooks necessary

VidEo CLUTCH TIRE SiziNg CHART

The VIDEO CLUTCH TIRE SIZING CHART has been developed to help you quickly identify Video Clutch Tires and find the correct PRB Line® replacement. Simply place your original tire on the circle that matches the tire's inside and outside diameter. You can also use the chart to size the cross section (height) and wall (thickness). Find your replacement in seconds without any special tools! Offered as another service to you - there is *no charge* for the Video Clutch Tire Sizing Chart. Ask for it when you place your next order.

FCC AND UL NUMBERS TO MANUFACTURERS' CROSS. REFERENCE

Every VCR, personal computer, cordless telephone and microwave oven must carry an FCC (Federal Communications Commission) identification number. The first three characters of that number identify the manufacturer of the product. The 1,11. (Underwriters Laboratories) numbers on consumer electronic products also identify the manufacturer.

FCC NUMBERS TO MANUFACTURERS		UL NUMBERS FOR VCR MANUFACTURERS (unofficial)

THE PRB BELT SYSTEM IS...

✓ **FAST** ✓ **PROFITABLE** ✓ **EASY**

HERE'S HOW THE PRB BELT SYSTEM WORKS

Projector-Recorder Belt Corp. provides you with PRB's exclusive and easy to use MEASUR-A-BELT GUIDE. You simply measure the customer's old belt by putting it on the MEASUR-A-BELT GUIDE (use either the tabs at the top or the metal grommets). The guide will determine the inside circumference of the belt in both inches and centimeters. You should then deduct 5%-10%* from that measurement and use that size as an approximate guide for the new replacement belt. The guide also helps you determine the width (cross section) of the belt in inches and/or centimeters. This information is contained in the PRB part number." With the information provided by the MEASUR-A-BELT GUIDE, you can find the replacement belt just by checking the PRB stock number printed on the belt packages. By using this exclusive numbering system you know the new PRB Belt is exactly the right belt to replace the old one.

* Deducting 5%-10% from the original belt allows for possible "stretch" of an old belt and assures a snug fit of the new belt.

** Exceptions to this include the OS, GT, VT & RF belts.

Place Old Belt On These Tabs Or Grommets To Measure Inside Circumference

Indicates Belt width
(Cross Section)
And Wall Thickness
(just insert belt into
opening nearest its
size to determine
correct cross
section and wall.)

Inside Belt
Circumference
(Small Belts)

Inside Belt
Circumference
(Large Belts)

Calipers for Measuring Outside Wheel Diameters are indicated on reverse side of Guide.

All dimensions of each belt are measured in inches. Following is the "KEY" to the numbering system:

SC prefix = Square Cut Belt
O prefix = O Ring Belt
FR prefix = Flat Rubber Belt

SQUARE CUT & O RING BELTS

Y = .039 or less A = .065 - .079
X = .040 - .049 B = .080 - .094
Q = .050 - .064 C = .095 & up

HERE ARE SOME EXAMPLES:

SCY8.6 = square cut belt with .039 or less c/s and 8.6" ic
SCX8.6 = square cut belt with .040-.049 c/s and 8.6" ic
OX5.9 = round O ring belt with .040-.049 c/s and 5.9" ic
OA10.1 = round O ring belt with .070 c/s and 10.1" ic

FLAT BELTS

When replacing FLAT belts determine 1) inside circumference, 2) cross section and 3) wall thickness (items 2 & 3 above can be measured by using the plastic scale at the end of the MEASUR-A-BELT GUIDE). Then select a new PRB belt that is closest to the overall specifications of the original belt.

NOTE: The Flat Rubber Belt identification number is different from all other PRB Belts. The 3rd letter of the Flat Rubber Belt prefix indicates only that there is a difference in cross-section, wall or both.

HERE ARE SOME EXAMPLES:

FRM10.2 = .210 c/s X .031 wall
FRX10.2 = .157 c/s X .031 wall
FRY10.2 = .065 c/s X .030 wall
FRZ10.2 = .180 c/s X .031 wall

Wheel Rebuilding: If a worn wheel is slipping and operating inefficiently on any of your electronic equipment, send us the defective part. **WE WILL REBUILD IT!** We will rebuild most wheels, rollers, or tires 3 inches in diameter less. Cost is quoted upon request for larger wheels and rollers.

Custom Cutting: For most belts* or tires we are not able to match, we have the capabilities to have them custom cut. This low-cost service can be your solution to a troublesome problem. Give PRB a try for those odd sized belts and tires! *(Gear and fabric belts excluded.)

Belt and Tire Matching Service: PRB offers a belt and tire matching service that saves you both time and money when trying to locate replacement parts. If you have a belt or tire you can't find a cross for...send it to us. Our experienced belt technicians will try to find a replacement for you... It's that easy!
