

KD-V400

A Precision Display System Plus Quick Auto-Reverse Convenience

U-Turn Quick Auto-Reverse Cassette Deck

- U-Turn quick auto-reverse system featuring Flip Reverse Head
- Multicolor Spectro Peak Indicator and electronic digital counter
- 2-motor full-logic tape control mechanism for soft-touch operation
- SA (Sen-Alloy) head for recording and playback
- Dolby B/C noise reduction systems for low-noise recording and playback
- Multi Music Scan to locate songs in a flash

The KD-V400 is the only deck anywhere with a built-in Spectro Peak Indicator. This extraordinarily useful indicator makes it easy to achieve optimum recording results with any type of music or tape. The U-Turn quick auto-reverse mechanism, SA head, full-logic control and Dolby B/C noise reduction assure you top performance and convenience.

Auto-reverse action is quick and error-free.

The U-Turn auto-reverse mechanism in the KD-V400

uses a swivel head, a system that guarantees the same top sound quality from both sides of a tape. Thanks to precision machining, head misalignment is never a problem, as it so often is in other auto-reverse decks.

Multicolor display lets you make perfect recordings.

The attractive multicolor display panel shows you the frequency makeup of your music in five bands centered at 63Hz, 250Hz, 1kHz, 4kHz and 12.5kHz. In addition, left and right peak levels are displayed.

By analyzing information on the panel, you can adjust overall level precisely for best, distortion-free recordings. To the right of the Spectro Peak Indicator is the Electronic Digital Counter with memory that shows tape consumed. The counter doubles as a program indicator for the 20-song Multi Music Scan feature.

Deck mechanism utilizes 2-motors for smooth, full-logic operation.

All operating buttons are logically grouped to the right of the tape compartment. Just a light touch initiates the desired mode thanks to the 2-motor full-logic transport.

- Metal tape compatibility.
- Block Repeat (Dual point memory).
- 3-LED tape direction indicator plus LED recording indicator.
- Timer start.
- Auto rec mute.
