Sony...a living world of
sight and sound

TC 60

Model TC 60 combines high quality with modest cost. This battery /mains compact cassette recorder offers piano key operation with lockable fast forward and rewind buttons, SONY-O-MATIC automatic recording level, stop /start facility on microphone, tone control and a host of supplied accessories including carrying case, cassette and mains lead. With many of the features normally found on more expensive models the streamlined TC 60 always captures the moment. Now in a choice of three exciting colours, orange, white or black.

TC 100A

A compact cassette recorder operating from mains or battery power source. Model TC 100A has easy to operate piano key controls, a separate microphone and SONY-O-MATIC record level control. Auxiliary input and output jacks and stop/start control on the microphone make this handy unit ideal for every use.

TC 110A

Another triumph of compact versatility from SONY. This TC 110A battery/mains cassette recorder has a three digit tape counter with reset button, piano key controls, automatic record level and built-in electret condenser microphone. It also features the unique 'review' key which enables any portion of the tape to be rewound and replayed in one action. Excellent reproduction and recording is the feature of this reliable unit.

TC 85

A completely portable cassette recorder, attractively styled and attractively priced. Model TC 85 gives you more than you would expect from a light weight ready to go unit. Standard features include push button operation, SONY-O-MATIC record level, stop/start control on microphone, battery or mains (with optional AC adaptor) operation and carrying case. Model TC 85 incorporates all the expertise necessary to give fine performance and easy operation.

TC 120

Swing into action with SONY's answer to perpetual motion. This compact portable cassette recorder has the 'swing balance' feature which assures stability of the recording function whether stationary or moving. Built in electret condenser microphone, and carrying case, with four available power sources, household current, torch batteries, re-chargeable battery pack, or 12V DC (with optional DCC 126) make the TC 120 the perfect companion.

TC 180

A high output quality mains operated cassette recorder—ideal for use in audio-visual application. Model TC 180 with its full 5W output can be used in classes with up to 50 students. This output can also be used as a public address system using the 'pause and public address' button. Moreover there are no tapes to thread—just snap in a cassette—students can use the TC 180 for independent studies. Other features include SONY-O-MATIC recording level (or manual over-ride) two microphone jacks for mixing, piano key push button operation, easy to read recording level meter, large accessory compartment. TC 180 SONY's new aid to studies.
