

**TC 160**  
 Sounds good from SONY. Model TC 160, a sophisticated stereo cassette deck to compliment any stereo audio system. 4-track stereo recording and playback utilising a closed loop dual capstan drive, cuts wow and flutter to an exceptionally low level. Other features include limiter switch, slide type record controls, piano key push button operation, pause button, headphone jack and tape selector switch for standard or chromium dioxide tape. Finished in high quality wood grain cabinet.

**TC 127**  
 SONY make good companions. Here's one for your existing hi-fi system. A high performance stereo cassette deck providing 4-track stereo and 2-track mono recording and playback. Sliding record volume controls for both channels with two VU meters for exact recording levels and a limiter circuit ensures distortion free recording on unexpected peak levels. Why not follow the example of thousands of enthusiasts and make model TC 127 your choice.

**TC 146**  
 Another first from SONY, a portable stereo cassette deck/mono cassette recorder in one unit, that's model TC 146. Connect this model to your hi-fi system to enjoy superb stereo on cassette tape. Recording in stereo (even outdoors with optional stereo microphone) or in mono with

built in electret condenser microphone is simplicity itself. In playback, model TC 146 can be connected to your stereo audio system or used as a complete mono cassette recorder. Other features include powerful 1.5W output, piano key push button operation, ultra narrow head gap, SONY-O-MATIC recording level and 4 way power source, AC mains, torch batteries, optional re-chargeable battery pack or car/boat battery. Finished in elegant walnut with frosted silver panel. A truly versatile companion.

**TC 124CS**  
 Turn a picnic into a party or a cruise into a caper. Model TC 124CS is a battery/mains portable stereo cassette recorder of truly versatile performance. 4-track stereo and 2-track mono recording and playback with automatic recording control gives perfect results. Operation is from a choice of torch batteries, AC mains or optional SONY re-chargeable battery pack, or car/boat batteries.

**TC 122**  
 Add sophistication to your existing Audio System. An attractively designed stereo cassette tape deck, model TC 122 gives 4-track stereo and 2-track mono recording and playback with optimum results due to the automatic gain control. Other features include dual level meters, tape pilot lamp, headphone jack and piano key operation. Handsomely finished in wood grain, model TC 122 is the economical addition to the perfect system.

**TC 165**  
 Another thoroughbred from the SONY stable of front runners. A deluxe stereo cassette deck combining the closed loop dual capstan drive system with an auto reverse mechanism. Model TC 165 also has a limiter circuit for distortion free recording, tape selector for standard or chromium dioxide cassettes, headphone jack with level selection, pause control, slide type record volume controls and dual level meters, all wrapped up in a well designed wood grain cabinet.
