Notes:

All fuel consumption figures quoted throughout this catalogue are "Ford computed touring fuel consumption figures".

All Ford cars use premium grade fuel.

The vehicles illustrated in this catalogue are, in some cases, fitted with options and accessories available at extra cost.

Towing limits and kerb weights

Towing limits quoted in this catalogue represent the recommended maximum towing ability of the vehicle with 2 occupants (150 lbs each) to restart on a 12% gradient (1 in 8.3 approx.) at sea level. This means that where additional payload is carried (additional occupants, luggage etc.), then this additional weight should be deducted from the recommended towing limit. The performance and economy of all models will be reduced when used for towing and economy engined vehicles will be particularly affected. Kerb weights are nominal weights for Saloons (by engine type) and will vary according to production tolerances and options fitted.

THE FORD ESCORT

Small car economy – Big car features

The Escort is Britain's best-selling small car. And no wonder. Good roadholding, handling, liveliness and economy. Tried and proven engines and gearboxes. These are just some of the features that have won the Escort its outstanding reputation for dependability and economy.

And there are lots more. Like stylish looks. The slim, lean Escort has a huge window area for better all-round visibility. Like plenty of comfort, roominess and quietness inside. The seats are ergonomically designed – with ample leg-room for rear seat passengers. The boot has 10.3 cu. ft. of usable luggage space.

There is a choice of engines from 1100cc to 1600cc, with the economy 1100cc engine fitted as standard on both the 1100 Popular and the 1100 Escort L. This engine gives you up to 44mpg! There's a wide choice of models too: the Escort Popular and Popular Plus, the Escort L, GL, Sport and Ghia and the wide range of Escort Estates. All the details are on the following pages – a continuing story of outstanding Value For Money!

ESCORT POPULAR

Economy with style

- 1100cc Economy or 1300cc engine
- Dual line braking system
- Face level ventilation
- Variable control heater

ESCORT POPULAR PLUS

- Plus** Two or four doors with childproof locks on rear doors
- Plus** Carpeted passenger compartment
- Plus** Reversing lights
- Plus** Fabric trim
- Plus** Dipping rear view mirror
- Plus** Full width padded front parcel tray
- Plus** 155 SR radial ply tyres on 13 in. styled wheels
- Plus** Extensive sound insulation
- Plus** 'Popular' script on fascia

Escort Popular

Engines

1100 cc OHV Economy or 1300 cc OHV.

Body

All steel integral construction. Safety glass all round. Two doors with anti-burst locks. Single tone paint finish with black window surrounds, black door handles and locks, black badging*, black bumpers. Separate luggage compartment, effective capacity 10.3 cu.ft. (14.5 cu.ft. in total). Spare wheel housed in luggage compartment. 9 gallon fuel tank.

*On dark body colours, badging has bright finish.

Wheels and tyres

600 x 12 crossply tyres on 12 in. road wheels with bright hub caps (1100 cc models). 155 SR x 13 radial ply tyres on 13 in. styled road wheels (1300 cc models).

Brakes

Hydraulic dual line. Drum brakes all round on 1100 cc models. Front discs and rear drums on 1300 cc models. Floor mounted handbrake.

Suspension

Front: Independent with McPherson struts and a stabilizer bar.

Rear: Semi-elliptic leaf springs (with a stabilizer bar on 1300cc models).

Exterior equipment

Popular script on boot lid.

Matt black windscreen wipers.

Two circular semi-sealed beam headlights incorporating side lights. Recessed direction indicators. Twin tail light assemblies incorporating direction indicators, rear lights, brake warning lights and reflectors. Rear number plate illumination light.

Seat Belts In accordance with statutory regulations, front seat belts are fitted, these are supplied at extra cost on all models but are included in the price of the Escort Ghia. Inertia reel seat belts only, are available on L, Sport, GL and Ghia models.

Options make all the difference All Ford cars are designed and built to give you the best Value For Money possible. That's why there is such a wide choice of models available—to give you the car that looks, feels and performs just the way you want it.

But, of course, there's always room for the individual touch. So, even though the Ford you choose offers an unbeatable number of Value For Money features as standard equipment, there are still some factory fitted optional extras available.

To find out just which options are right for your car, remember that the best man to talk to is your Ford dealer.

Automatic transmission Whatever you do, try automatic transmission before you make your mind up about gearboxes. Chances are you'll never drive with a manual gear-box again. Driving an automatic brings real pleasure back to motoring. It's easy to use, controllable, responsive and safe. No more left leg ache when you're in town traffic. Automatic transmission selects the correct gear smoothly, quietly and efficiently every time. You can 'hold' a gear if you wish. All you do is move the selector and the transmission does the rest. Overtaking's easy, just kick-down the accelerator and the transmission changes down to give you instant acceleration.

A Ford automatic transmission, designed and built by Ford for the driving conditions you meet everyday is now available on most Ford cars. It's smaller and more efficient and has two important new features. Emergency engine braking can be achieved by manually selecting 1st gear at speeds up to 40mph and "zero throttle braking" ensures progressive automatic change down at 20mph and below. Try a Ford with automatic transmission before you make your mind up.

Sports road wheels Real sports road wheels stylishly enhance the looks of your car. They're attractive and tough and built to run true over even the roughest of roads.

Push button radio Constantly changing traffic conditions and the increasing need to be aware of what's happening on the road ahead makes radio a natural option to take. No matter how short your journey it will be more enjoyable with the company of a radio. The Ford optional push button radio puts traffic news and entertainment at your fingertips.

Vinyl roof You can add distinction to your car by ordering the beautifully grained, hard wearing vinyl roof.

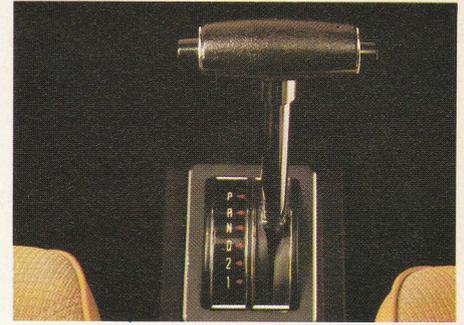

Sunshine roof The sun on your face in summer and the crisp air of winter are all part of enjoying life with a sunshine roof. No other option provides quite as much pleasure. Ford sliding steel sunshine roofs open and close in seconds to give you open air motoring. They also have a unique tilt facility to give you circulating fresh air whatever the weather. Try a Ford sunshine roof.

Laminated windscreen The windscreen is made from two sections of glass separated by a thin film of plastic. If a stone hits the windscreen—or it's struck hard in some other way—you're well protected. Instead of shattering or crazing and suddenly leaving you with a restricted view ahead, the windscreen simply cracks but holds—so that you can still see ahead and have plenty of time to avoid any danger.

Tinted glass Let's be clear about tinted glass. We don't mean that solid black stuff that means you can see out but nobody else can see in. That's strictly for people who like other people to think they're pop stars. Ford tinted glass is very delicately tinted—for a very practical reason. It reduces the radiant heat of the sun by one third and helps to reduce glare. Positive benefits for more comfortable and safer driving. And if it does give your Ford that little extra stylish look—just look on that as a free bonus.

Remote control door mirror It sounds a little gimmicky, but it's not. It's a very useful option. Ford designers opted to place it on the driver's door—with the luxury of remote control from inside the cockpit—so you can position it perfectly without leaving your seat.

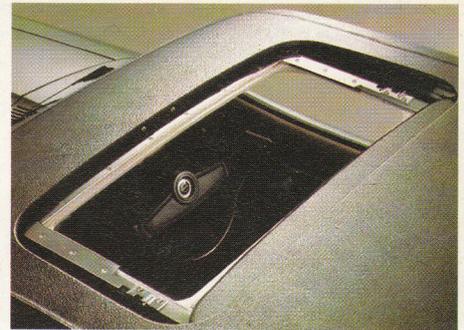

Ask about these and the other Ford factory fitted options. Ford options have been carefully selected to add more to the pleasure of owning your car.
